

## Product Recall

P&G has issued a voluntary recall in collaboration with CPSC for select lot codes of bags of Tide PODs, Gain Flings, Ace PODs and Ariel PODs distributed in the US and Canada.

**Product:** Certain lot codes of defective bag packaging of Tide PODs, Gain Flings, Ace PODs and Ariel PODs distributed in the US and Canada between September 2023 – present. No other products are affected except these specific lot codes of bag packaging.

**What to Do:** Bags from select lot codes sold during this period can have defective closures, which could lead to serious injury if the product inside is able to be accessed unintentionally. Ingestion of a large quantity of any surfactant-containing household cleaning products can cause death among individuals with underlying health issues. If you have an issue closing bag packaging, immediately transfer the product to a container with an effective Child Resistant Closure and store it up, closed and away, since the product inside is unimpacted by this packaging defect. Then, reach out to P&G directly at [pggoodeveryday.com/bags](http://pggoodeveryday.com/bags) or call us at 1-833-347-5764 and our team will be ready to assist you.

**Where to find the product code:** The lot code can be found on the bottom of the bag. The bar code can be found on the back.

**Questions and reimbursement:** Consumers who purchased these products can contact our Consumer Care team at 1-833-347-5764 from Monday through Friday, 9 AM ET to 6 PM ET, Saturday, 9 AM ET to 5:30 PM ET, or online at [pg.com/bags](http://pg.com/bags) for a replacement bag package and reimbursement. We apologize for the inconvenience.

*In cooperation with U.S. CPSC*

*Please post until August 2<sup>nd</sup>, 2024*
